

Session 3: Interactive Group Exercise 1

NMHS Annual Plan and reporting template

Presented to the PICS panel members (NMHS)

18 October, 2026 | Lamana Hotel, Port Moresby/PNG

Philip Malsale/Senior Climatologist/SPREP

TITLE: NMHS Annual Plan and Reporting template

Goal - This session will involve hands-on exercise to map and confirm PRSCS at the National level. Each country (NMHSs) to complete the PRSCS mapping template. Evaluate baseline data availability and identify technical backstopping needs

Aim: This is to established a coordinated approach to climate activity planning and reporting on annual basis. This will help with consistent reporting at the national, regional and global level.

NMHS Climate Roadmap
National level planning

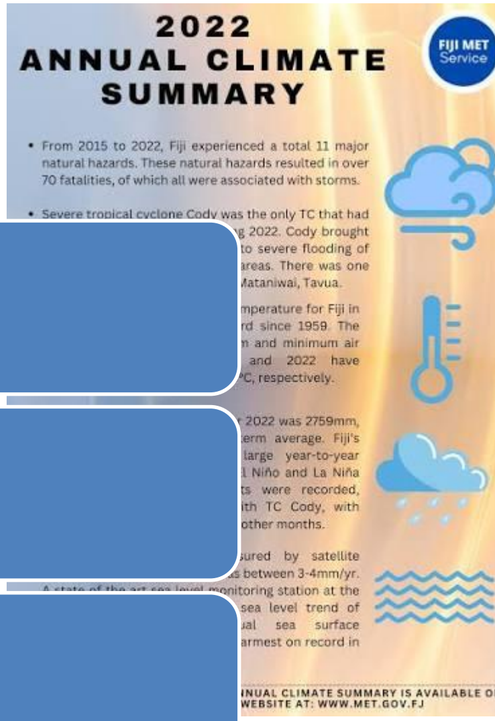

Other important reports NMHS contribute to

National Sate of Climate

National State of Environment

IPCC report

But we have an issue of not been consistent in providing data or country information to these reports

Group exercise

Work in your country

Use /download the Roadmap Action Tables provided in the link or send by email
https://docs.google.com/document/d/1OlXqECrrUEF2cGo7kEtd3cyOjOooQGo1/edit?rtpof=true&sd=true&tab=t.0

Complete your activity planning

1. Rename your file to your country name (Samoa 2027-2033)
2. Look at the action table and see the activities with NMHS, this is what you will work on in this session
3. Input national activities that you are currently or will implement
4. If you are already doing this, then highlight who are the partners involve at the national level
5. If there is a project, then this need to be update in the template
6. Provide a time frame for these activities (Month_ Year eg September_2027)
7. Finalise all activities in the action table
8. Provide a summary presentation on your country plan for activities until 2033
